WORK EXPERIENCE

Spray Solutions

Jan. 2025 – March 2025

Hybrid

- Built contracts automation with Python, reducing manual work and boosting efficiency.
- Created the integration of spreadsheet imports and data processing features, streamlining inventory management for businesses.
- Refactored and optimized UI components, improving performance and maintainability across multiple platforms.
- Adapted quickly to new technologies.
 - **Stack:** Flutter; Firebase; Flutterflow

Projects

LMS Landing Page

May 2025 – June 2025

- Developed the landing and login pages for ForgingNet using modern UI patterns and responsive design.
- Implemented interface animations for service sections, button interactions, and hover effects to enhance user experience.
 - **Stack:** Next.js and Tailwind CSS

Shopping System

April 2025 – May 2025

- Built a shopping platform with cart functionality (add, update, delete), user roles (admin/user), and order submission flow.
- Admins can manage users, approve/reject orders, and create product categories.
- No real payment integration, orders are finalized manually by admins.
- Designed a clean, responsive interface with user-friendly layout.
 - **Stack:** PHP, JavaScript, HTML, CSS

EDUCATION

Colégio Técnico Industrial de Santa Maria (CTISM - UFSM)

March 2023 – December 2025

Technical High School, Internet Computing

Santa Maria, RS

English Language Course

March 2018 – November 2024

Teens 2, Teens 4, Teens 6, Teens 8, W10, W12
